EDUCATION

2019 - 2021

GSPS, SGNR

- Senior Secondary

2021 - 2024

HINDU COLLEGE, DU

- Bachelor of Philosophy
- GPA: 7.0 / 10

SKILLS

- AWS (EC2, S3, IAM, Lambda, RDS, DynamoDB, SNS)
- Terraform, ArgoCD, Jenkins
- Prometheus, Grafana, ELK
- Shell, Python, GO
- Apache, Nginx Web Servers
- Git, Github & VC
- Jira, SCRUM, Linux
- Kubernetes (Kind, Minikube, EKS), HELM
- Docker & Containerization

SOCIALS

PRAVESH SUDHA

DEVOPS ENGINEER

An aspiring **DevOps** engineer, looking for opportunities in **DevOps** and **Cloud**.

PROJECTS

Cloud-Native Monitoring & Deployment with ArgoCD

- ★ Tech Stack: **AWS EC2, Docker, Kubernetes, ArgoCD, Prometheus, Grafana, Helm**
- Reduced deployment time by **60%** using GitOps automation.
- Improved Kubernetes monitoring efficiency by **50% via Prom & Graf**.
- Deployed a Kubernetes-based voting app with real-time observability.
- [Blog: Deploying a Voting App with ArgoCD](#)

AWS Cost Optimization with Automated Log Archiving

- ★ Tech Stack: **Shell Scripting, AWS S3, Jenkins, ELK Stack**
- **Reduced** infrastructure costs by **40%** by automating Jenkins log archival to AWS S3.
- Developed a **Shell script** to transfer non-essential Jenkins logs from Elasticsearch to S3 daily.
- [Blog: Mastering Cost Optimization](#)

Automated AWS Deployment with Jenkins & Terraform

- ★ Tech Stack: **AWS EC2, IAM, S3, Terraform, Jenkins, Docker**
- Reduced manual deployment efforts by **50%** with Terraform & Jenkins automation.
- Cut setup time from **30 min to 5 min** by implementing a CI/CD pipeline.
- Automated deployment of a **Dockerized 2048 game** on AWS EC2.
- [Blog: Jenkins & Terraform in Action](#) | [YouTube](#)

WORK EXPERIENCE

Freelance DevOps Engineer

- 📍 [Fiverr](#) | Remote | Jan 2024 - Present
- Deployed & configured an **Apache web server** to host rhenopalatia.eu for a German client.
- Implemented **SSL/TLS** security, optimized server performance, and automated deployment processes.
- Managed server provisioning, domain setup, and cloud infrastructure.
- Skills: **Apache, Linux, SSL, DevOps, Cloud Infrastructure**

Technical Blog Writer - DevOps & Cloud

- 📍 [Hashnode](#), [Medium](#), [Dev.To](#) | Remote | May 2023 - Present
- Authored 20+ technical blogs, gaining **5,000+ views** on DevOps, AWS, Kubernetes, and CI/CD.
- Published in **DevOps.dev**, **AWS in Plain English**, **AWS Tip**, and grew a **50+** follower base.
- Created **YouTube tutorials** on cloud automation & DevOps.
- Skills: **Technical Writing, Cloud, DevOps, Content Creation**

Open Source Contributor - Kestra, TestKube

- 📍 [GitHub](#) | Remote | Jan 2023 - Present
- Contributed to **Kestra & TestKube**, improving frontend UI & enhancing user experience.
- Blog featured in **Kestra's Community News: How I Contributed to Kestra**
